

# A cleaner environment

One of our lithium-ion batteries prevents the replacement of up to 24 lead acid batteries.

=

**Lithium-ion batteries are:**

- ✓ Maintenance free
- ✓ Chargeable at user's convenience

i-Synergy machines meet all LEED and CIMS preferability criteria.

i-Synergy machines come standard with telemetric capabilities that prevent unnecessary service trips by diagnosing malfunctions remotely from a desktop or smartphone app.

\* No monthly i-Synergy data service subscription required.

ICE is a proud member of the US Green Building Council.
