

DUST MOP/DUST CLOTH TREATMENT

PRODUCT DESCRIPTION:

Spartan manufactures two types of DUST MOP/DUST CLOTH TREATMENTS – one liquid and one aerosol. The liquid is packaged in drums, 5-gallon pails and in gallon containers. The aerosol is packaged in twelve lithographed 20 oz. cans per case.

Schools, hospitals, and supermarkets purchase DUST MOP/DUST CLOTH TREATMENT in drums because of the amount of daily dusting done in institutions. Dust mopping is necessary in schools, not only because it keeps floors clean, but it also helps cut absenteeism.

Dust can be a carrier of bacteria, and the more we use a product such as DUST MOP/DUST CLOTH TREATMENT, the fewer chances of a spread of infectious diseases.

DUST MOP/DUST CLOTH TREATMENT reduces wear and the abrasion of floor finishes from sand and soil and enhances the appearance and prolongs the floor finish life.
